NEW PUBLICATIONS.

THE ORIGIN OF THE HOMERIC POEMS. A lecture by Dr. Hermann Usener. Translated from the German by Lewis B. Packard. Boston: H. O. Holt & Co. 1879. Pp. 120. Price 50 cents.

For questions upon literary history have been debated with much vigor and persistence as the one which forms the subject of this little volume. The theme has proved various and fruitful in the highest degree, and given rise to a long series of publications in different languages. Notwithstanding its remoteness and lack of practical character it has been regarded as of the first importance on account of the acknowledged excellence of the Homeric poems and the over-undue importance attached to them by the general public. It seemed even to the Greeks themselves that their poetic literature was the variously unfolded flowers of a tree whose root and trunk were the Iliad and Odyssey. Aschylus the founder of Greek tragedy regarded his own poems as mere fragments fallen from the noble tree of Homer. Greek history was based on the narrative of Homer and in Homer Greek philosophy sought its origin and authority for its convictions. And so far as modern nations have passed the connection of the poet with the nation and the classic antiquity they have allowed to the Homeric poems a prominent place in the higher education of youth.

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

AND ALL AFFECTIONS OF THE LIVER.

Symptoms of a Deseased Liver

PAIN in the right side, under the

edge of the ribs, increases on pressure,

sometimes the pain is in the left

side, the patient is rarely able to lie

on the left side, sometimes the pain is

felt under the shoulder blade, and it

frequently extends to the top of the

shoulder, and is sometimes mistaken

for rheumatism in the arm. The

stomach is affected with loss of appetite

and sickness, the bowels in general

are costive, sometimes alternate with

loose, accompanied with a dull, heavy

sensation in the back part of the

generally a considerable loss of memory,

accompanied with a painful sensation

of having left indigestion something

which has to be done. A slight, dry cough is

sometimes a attendant. The patient complains

of weariness and debility he is easily

struck, his feet are cold or burning,

and he complains of a prickly sensation

of the skin. His spirits are low, and

although he is so tired that exercise

is so beneficial to him, yet he

can scarcely summon up fortitude

enough to try. In fact, he distrusts

every remedy. Several of the above

symptoms attend the disease, but cases

have occurred where few of them exist,

yet examination of the body,

after death, has shown the liver to

have been so extensively diseased.
